

# WHISPER YOUR NAME

Music & Lyrics by Harry Connick Jr. and Ramsey Mclean

6 bar intro

as sung by Harry Connick Jr.

Somebody was spreading rumors  
'Bout better days a-comin'  
Why was I hummin'? As if I knew  
One and the same but I just whispered your name

Somebody was sayin' something  
'Bout there being an end to tyranny  
But when they asked me what would I do  
If that day came, I only whispered your name

## **Chorus:**

Everyone got their own opinion  
And protects their own dominion  
No doubt for them it's true  
But I tell them what I really believe  
My only worry is protecting you, yeah

No one should ever be lonely  
We'd all find somebody to care  
Ask me if I dare  
To answer who  
Could carry that flame  
I'd just whisper your name

## **Chorus**

Nobody should ever be lonely  
We'd all find someone to care, well  
Ask me if I dare to answer who  
Could carry that flame, carry that flame, yeah  
Carry that flame, I'd just whisper your name
